Heritage Artwork in Public Places Directory
About the Heritage Arts Advisory Committee...

Santa Fe Springs has a strong record of support for public art. In 1989 the Santa Fe Springs City Council adopted an ordinance which created the Heritage Artwork in Public Places Program (HAPP). Since its inception HAPP has provided a collection of over one hundred pieces of nationally recognized permanent artwork throughout the city. It has expanded the opportunities for residents and visitors to experience artistic, historic and cultural aspects of Santa Fe Springs through artwork. HAPP has also generated funds to support a range of artistic and cultural activities and venues, including, but not limited to, children-oriented public art events, live theatre, music and dance festivals, museum activities, arts education, and facilities that support the creation, performance, and exhibition of art.
